

NEWS RELEASE
Greater Egg Harbor Regional High School District

For Immediate Release
December 12, 2008

Contact: John R. Houck, Sr.
President of the Greater Egg Harbor Regional High School District
(609) 625-1456

On behalf of the Board of Education of the Greater Egg Harbor Regional High School District, I would like to extend our sincere appreciation for your support in securing the positive outcome of the December 9 Referendum for the installation of solar panels at Absegami High School.

In its continuing efforts to lower costs and meet the energy needs of its schools, this project is a step in the right direction. Solar energy is the most abundant energy resource in the world, and its use offers huge potential for natural resource and climate protection and for the expansion of renewable energies on the road to a future-oriented energy supply.

Your vote also sends a positive message to our students on the importance of energy conservation. As leaders of tomorrow, they must understand the important role they play in creating a sustainable future and create the steps needed to achieve the vision.

Thank you again for your support and your part in creating a better environment for everyone.
